

Electrical Engineer

FourFront Design, Inc., a Rapid City, SD, design firm is interested in hiring an Electrical Engineer to act as the primary POC for electrical design and project management for the coordination of EE project components between our firm, design consultants, and Client(s). Individual will be responsible for EE design and the planning, organizing and directing of activities related to EE projects including specifications and construction documents.

Must have a Bachelor's degree or higher in EE, professional licensure, and a minimum of 4–7 years of relevant industry experience. Candidate must also have strong design, technical, and communication skills, experience with AutoCAD, BIM, and Revit software programs, and possess sufficient knowledge of sustainable design and green building issues or the ability to achieve LEED AP as required.

This will be a full-time salaried position, exact salary DOE but will be within the \$55k-\$75k range. Complete benefits package available for eligible participants including Health, Dental, Vision and Life Insurance, 401k, and Vacation/Sick Leave/Paid Holidays.

For more information, please contact Na'ahma Golden, Executive Assistant, at 605-342-9470 or ngolden@4front.biz.
